

How to PhotoDay

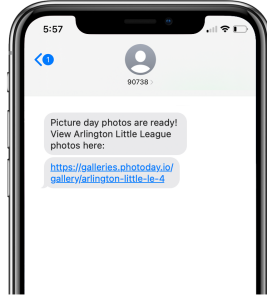

Step by Step

Step 1

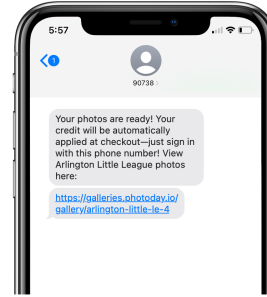

Text your access code to **90738** - prior to picture day, preferably! Your photographer will provide you with an access code via a flyer, email, or even a poster with a QR code!

Step 2

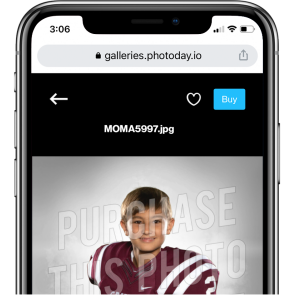

Sit back and wait for your gallery to be published. You'll get a text notification the minute your photos are ready!

Step 3

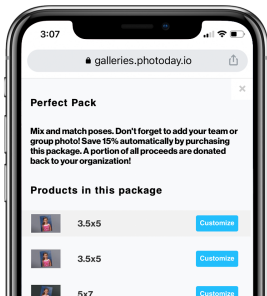

If you purchased a credit prior to picture day, you'll automatically receive a message when it's time to view your photos. The entire credit purchase will apply to your order - and it's linked to the mobile number you used to make the purchase!

Step 4

Next, find your photos and tap "Buy" to see the packages and products your photographer has made available to you.

Step 5

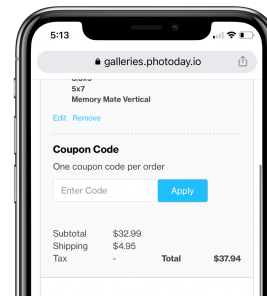

You'll be able to build packages, mix and match poses, and if offered, even change backgrounds! You get to order the products you want with the photos you love.

Step 6

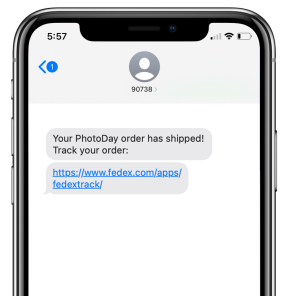

Don't forget to confirm your cropping here to make sure you don't cut off any heads!

Step 7

When it's time to checkout, you can review your final order and apply any credits or offers that were made available to you by the photographer.

Step 8

Make sure to subscribe to text and email communications so we can send your tracking information and receipt!
